

GDDA8-1296

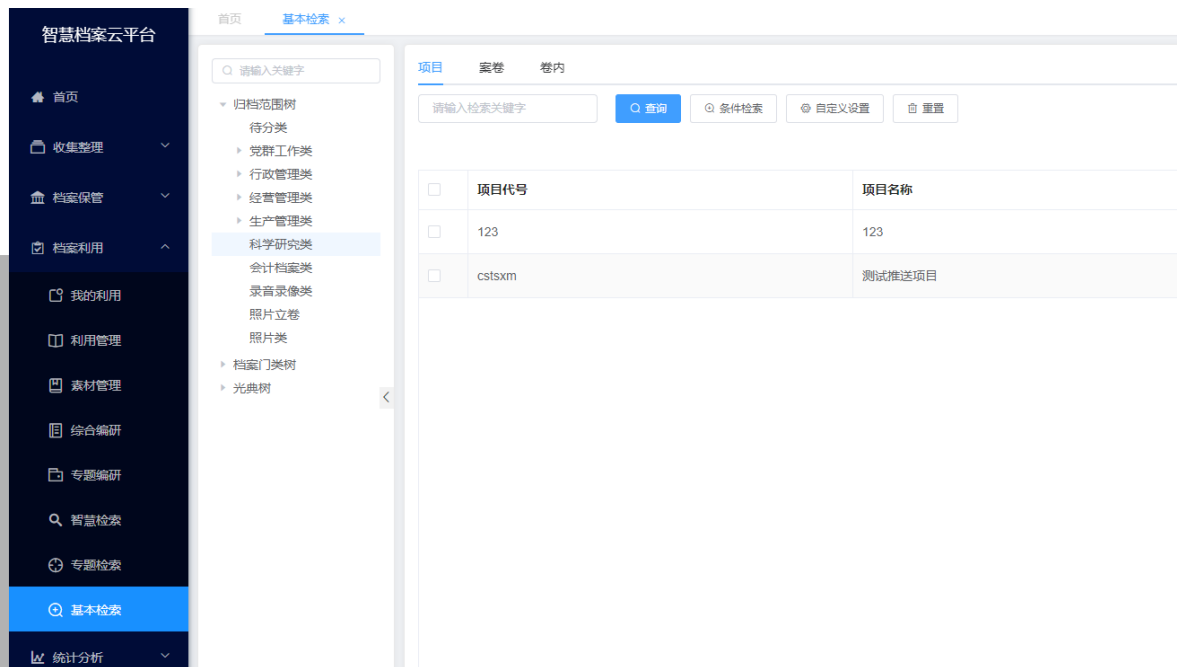

基本检索现在用的页面，这是有问题的

src/views/archive/archive-maintain/components/TabPanel.vue

```
1 <template>
2 <el-tabs v-model="activeName" @tab-click="handleChange" class="tab-header">
3   <el-tab-pane label="案卷123" name="folder">
4     <un-tab-panel v-if="activeName === 'folder'" :windowMoreHeight="50">
5   </el-tab-pane>
6   <el-tab-pane label="未组卷" name="unFolder" v-if="$route.query.menuId" >
7     <un-folder v-if="activeName === 'unFolder'" :windowMoreHeight="50">
8   </el-tab-pane>
9 </el-tabs>
10 </template>
11
```

正确的应该是：（金融环境基本检索的截图）

我觉得 此vue页面应该是在:

src/views/archive/base-search/components/BaseTabPanel.vue

```
1 <template>
2 <el-tabs v-model="activeName" @tab-click="handleChange" class="tab-header">
3   <el-tab-pane label="项目" name="project" v-if="params.tabLevel===3">
4     <project-panel :params="params" :template-obj="templateObj" v-if="activeName===
5   </el-tab-pane>
6   <el-tab-pane label="案卷" name="folder">
7     <forder-panel :params="params" :template-obj="templateObj" v-if="activeName===
8   </el-tab-pane>
9   <el-tab-pane label="卷内" name="file">
10    <file-panel :params="params" :template-obj="templateObj" v-if="activeName===
11  </el-tab-pane>
12 </el-tabs>
13 </template>
```

应该是基本检索没有引用base-search的页面，而引用了archive-maintain错误的页面
